DESIGN PORTFOLIO

- Collaborated closely with UX designers, back-end engineers, and stakeholders to deliver responsive, secure mobile applications using React Native, React.js, HTML, CSS, and JavaScript. Ensured seamless communication between technical teams and clients, maintaining clarity, professionalism, and alignment throughout the development lifecycle.
- Prepared and delivered structured updates, progress reports, and technical documentation to bridge communication between developers and non-technical stakeholders.

Thank you for your
consideration.

- Coordinated across distributed teams and time zones to support consistent delivery and effective collaboration within an Azure DevOps / CI-CD environment.
- Anticipated and addressed potential challenges related to technical integration, performance, or compliance (including GDPR and app store standards), ensuring high-quality, production-ready releases to both iOS and Google Play stores.
- Demonstrated adaptability and problem-solving in dynamic project settings, maintaining a high standard of professionalism and commitment to quality across all interactions.

WORK EXPERIENCE

D'roid Technologies | Senior Software Engineer

2023-Current

- Represented Front-End Developers (Mobile Apps) in professional and technical interviews, effectively communicating their expertise in React Native, React.js, HTML, CSS, and JavaScript to clients and hiring teams.
- Acted as a liaison between developers and Dublin-based client partners, ensuring clear, consistent, and professional communication across meetings, progress reports, and ongoing collaboration within a hybrid (2 days on-site) model.
- Prepared extensively for client discussions by reviewing developer profiles, technical portfolios, and project experience related to mobile app development, Azure DevOps, ADB2C, and cloud integration (API Management / App Services) to ensure accurate and confident representation.
- Facilitated seamless information flow between developers and clients by organizing daily reports, clarifying technical requirements, and ensuring mutual understanding of DevSecOps practices, CI/CD pipelines, and deployment processes for iOS and Android platforms.

Eco Bank | Senior Software Engineer

2022-2023

- Collaborated closely with front-end and mobile developers (React Native, React.js, HTML, CSS, JavaScript) to ensure clear and professional communication between technical teams, clients, and stakeholders.
- Facilitated smooth collaboration within hybrid teams by preparing and delivering accurate progress updates, sprint reports, and project summaries through Azure DevOps.
- Maintained a high level of professionalism during client meetings, UX reviews, and technical discussions, effectively representing developers' skills, project milestones, and app performance goals.
- Supported cross-functional collaboration by clarifying client requirements, coordinating feedback between UX designers and back-end engineers, and ensuring alignment on API integrations, accessibility, and GDPR compliance.
- Stayed informed on project goals, CI/CD workflows, and mobile deployment processes (App Store / Play Store) to accurately represent team progress and technical decisions in professional settings.
